**2
YEAR**

WARRANTY

YOU HAVE A LONG LIST OF TASKS TO DO EVERY DAY, AND YOU NEED A RELIABLE WORK PARTNER.

You'll find one in Club Car's line of transportation and utility vehicles. Our cars help you move those ever-growing lists of tasks from the to-do list to the job-well-done list. Although you may have 1000 jobs, you need only one Club Car to help you complete them all.

A WARRANTY AS RELIABLE AS OUR VEHICLES.

Club Car's worldwide dealer network provides quality service and prompt support for your vehicles. Our vehicles are backed by the industry's best 2-year limited warranty. Our batteries are backed by a 4-year warranty. Our warranties represent our promise that you'll enjoy worry-free performance when you choose Club Car.

▼ **JOB 98: FOR THE SHREWD SURVEYOR.**

Work crews appreciate the rugged durability of our Transporter 4 and the ability to bring their gear with them on the job. You will appreciate the long-lasting strength of our rustproof aluminum chassis and metal bodies.

WE INVENTED THE **UTILITY** WORLD'S **FIRST** VEHICLE.

It's true. In 1970, as a strong player in the golf car market, we seized an opportunity for making a utility vehicle that could do what a small work van would do, but at a fraction of the cost. We took it a step further by developing a new model, the Carryall 2, from the ground up and making it rustproof and corrosion-resistant with an all-aluminum chassis, body and bed. It was so successful, we expanded our offerings to include both industrial grade transport and refined multi-passenger cars. With over 6 models to choose from, you will find our vehicles in all major markets around the globe.

WORLD'S LARGEST SMALL-WHEEL VEHICLE MANUFACTURER.

Club Car makes the finest small wheel vehicles in the world. Safety, quality, innovation, and great value have been the driving force behind our business since 1958. Thanks to customers who have experienced the world's finest, Club Car has grown into the largest golf and commercial small-wheel vehicle manufacturer in the world. With more than 80 Club Car models — distributed by over 500 dealers worldwide — we celebrated our 2,000,000th vehicle in 2010.

◀ JOB 754: APARTMENT FINDER.

The most economical people-mover we sell. And at 30.6 km/h, it's the easiest way to zip around your complex with prospective customers.

▼ JOB 203: DEALERSHIP RUNABOUT.

Whether you're running out to the lot to verify inventory or taking a happy couple to their dream car, the Villager 4 is fast and classy.

VILLAGER 4 KEY FEATURES:

- Tight 3.7 m turning radius
- Standard Monsoon XL™ canopy with water management system
- 30.6 km/h top speed with Xcelerator™ upgrade

LARGEST PRODUCT LINE-UP: WE'RE COMMITTED TO OUR CUSTOMERS.

14 platforms. 27 commercial models. Gasoline. Electric. Diesel. 4x2s. 4x4s. Light duty, medium duty, or heavy duty. 2-, 4-, 6- or 8-passenger models. Up to 681 kg payload capacities. To sum it up, we have something for everyone, which is one of the reasons we've grown to be the largest small wheel vehicle manufacturer in the world.

▲ JOB 317: EMPLOYEE SHUTTLE.

It just makes perfect sense to have a few Villager 4 vehicles around. With seating for 4 passengers and economical to operate, the Villager 4 is ideal for transporting your employees efficiently.

▲ JOB 171: CAMPUS TOURS.

The electric Villager 6, with its quiet, smooth ride and zero emissions, is the perfect vehicle to take alumni and proud parents on a tour of your campus.

▲ JOB 401: EVENTFUL DAYS.

The Villager 6 is perfect for moving family-size groups. Use them for transporting your guests across your resort property or rent them by the day for additional revenue.

VILLAGER 6 KEY FEATURES:

- Flexible passenger and cargo configurations
- Lightweight
- Advanced onboard diagnostics (IQ Plus)

CUSTOM SOLUTIONS: IF YOU CAN IMAGINE IT, WE CAN BUILD IT.

Custom Solutions is another Club Car innovation. We've been building dreams longer than anyone and have a seasoned team of engineers and craftsmen that will design and build whatever you dream up. We've done it all, from creating a hydraulic scissor-lift bed to designing and building custom van boxes and ambulances. Our solutions are original equipment certified, so you have the peace of mind that your vehicle is warranted and manufactured with the quality, safety, and efficiency you expect from Club Car.

▲ JOB 291: MINIMIZE MALL MADNESS.

The Villager 8, an exclusive Club Car solution, is a real people-pleasure. With plenty of power to shuttle groups of 8 at a time, you'll be able to move large crowds quickly.

◀ JOB 210: RESORT GUEST SERVICES.

A Custom Solutions fold-down seat and extended canopy added to the Villager 6 is a classy move. Haul 4 people and luggage in style and comfort, protecting your guests from the sun and rain. Or, move 6 if there are no carryons.

▲ JOB 369: DURING HAPPY HOURS.

For those that are serious about hosting or catering events, consider owning a Villager 8 for all your events or call your local dealer to rent a few. Your guests will thank you.

VILLAGER 8 KEY FEATURES:

- Powerful standard electric powertrain
- The refined Limo of the transport industry
- Transport passengers in narrow areas not accessible by conventional vehicles

BEST-IN-CLASS RELIABILITY: THE WORLD'S NO. 1 UTILITY VEHICLE BRAND.

Count on many years of worry-free performance when you choose Club Car. We're so confident in the quality of our products, our vehicles are backed by the industry's best 2-year limited warranty and supported by the industry's largest worldwide dealer network.

But don't take our word for it. Check out the numbers. Zero emissions . . . Number one in worldwide sales . . . More than eighty models to choose from . . . Millions of happy customers. All this in one name you can trust . . . Club Car.

▲ JOB 833: LAUNDRY SERVICE.

The Transporter 4 with a cargo box is well suited for housekeeping and janitorial work. A strong, rib-reinforced, all-aluminum frame and body protects your vehicle from staff abuse too.

TRANSPORTER 4 KEY FEATURES:

- Lightweight
- Powerful gasoline and electric powertrains
- Wide range of factory configurations
- Gasoline model features convenient side fuel fill

▲ JOB 525: A RESORT AMENITY.

The Transporter 4 with optional stake-side kit is ideal for your house keeping needs. Transport your work staff and carry laundry, trash or other bulky items.

JOB 774: CHARTER CLUB MEMBERS HOSPITALITY. ►

Consider the Transporter 6 with optional fold-down seat and rustproof aluminum chassis for your guests in every salt-water environment. Carry 6 passengers or 4 with lots of storage for gear.

▲ **JOB 688: INDUSTRIAL PROWESS.**

The Transporter 6, with plenty of power, room for six, tight turning radius and a hard aluminum body, allows your staff to safely and easily finesse large groups around congested environments.

**TRANSPORTER 6
KEY FEATURES:**

- Wide range of factory options
- Durable metal body
- Powerful gasoline and electric powertrains
- Gasoline model features convenient side fuel fill

INDUSTRY-LEADING INNOVATIONS: BEGINNING IN 1970.

For nearly one-half a century, Club Car has led the way in the utility vehicle industry. It all began when we invented the industry's first utility vehicle in 1970. From there, the fire sparked a host of other industry innovations. Now, we are the largest manufacturer of small 4-wheel vehicles in the industry with the widest available product range.

Sustainability. Club Car is committed to the reduction of waste and environmental emissions. *Going Green* starts in our factory, from our aggressive recycling programs to returnable packaging for incoming components. Our green solutions help you reduce your carbon footprint significantly and may help your company save thousands each year in fuel costs.

- *Our powerful, electric powertrains produce zero-emissions.*
- *Our gasoline vehicle powertrains are EPA-certified and significantly more fuel efficient than pickup trucks and vans they replace.*
- *Our aluminum frames, steel components, batteries and vehicle bodies are recyclable.*

Reliability. Count on our legendary reliability and durability to meet your operation's day-to-day needs.

- *Our industrial-grade engines feature heavy-duty components for life spans measured in years, and for many scenarios, in decades.*
- *We provide clutches that are finely balanced in-house along with synchro-mesh transmissions to reduce vibration and wear and tear.*
- *Our heavy-duty electronic controllers and motors deliver amazing low end torque and peaking at 15.7 kW year after year.*
- *Our automotive and marine-grade materials make cleaning easy and help retain your investments value.*
- *Just like an automobile, our vehicles are designed to draw in cool, clean air from the front chassis, which passes through high capacity filtration systems for reduced filter maintenance.*

Comfort & Convenience. From fueling or charging the car to periodic vehicle maintenance, we design simplicity and intelligent functionality into our vehicles.

- *For Transporter gasoline models, outside-fill fuel caps and easy engine access make operation and service simple.*
- *For our electric vehicles, speed caps or an optional single-point watering system make battery service easy.*
- *Remote oil filters on our 4x4 products makes changing them a breeze.*
- *Large dashboards and expanded storage provide quick access and ample room for all your tools or personal items.*

Strength. We're the only major manufacturer in the industry that builds vehicles on aircraft-alloy aluminum frames. Our exclusive, rustproof frames have been tested to be up to 3 times stronger than competitors' steel frames and our long wheelbase transport vehicles have a total vehicle capacity of 681 kg.

- *Our I-beam frames create incredible strength with low weight.*
- *Our rigid, aluminum and steel cargo boxes are designed to handle years of hard work and abuse.*
- *Our Transporter models have metal rear bodies which resist impacts.*
- *ArmorFlex bodies are strong yet flexible enough to survive life's mishaps.*

Safety. The safety of your employees and customers is your concern and ours. We engineer our vehicles with features that meet or exceed industry standards.

- *Zero-speed detect on our electric vehicles controls the vehicle speed should the vehicle inadvertently roll away.*
- *Control vehicle speed as low as 8 km/h via programming and speed-key option.*
- *We offer high impact acrylic or tempered safety glass windshields*
- *Side hip restraints are standard on all models.*

Innovation. Club Car's long history of innovations are deeply rooted in an effort to solve our customers' needs. From the onset, we offered the first 4-cycle engines, self-adjusting rack and pinion steering, independent front suspension and synchromesh transmissions. Customer feedback continues to drive our passion for innovation.

- *Monsoon XL canopy the first canopy from a vehicle manufacturer to offer integrated drainage, internal ventilation and audio system provisions.*
- *Our electric vehicles feature advanced diagnostics with customized performance, speed, and regenerative braking.*
- *Our speed-key option, available on IQ Plus electric vehicles, control the performance and speed of the vehicle based on the user.*
